WILD RICE.
The ordinary growth of the plant is 5 to 7 feet high, in water and cannot be equalled as an attraction for ducks and geese, also for fishes, Per lb. 20c.

SEED WHEAT.
Fulcaster. A bearded wheat, very fine grained and a great yielder, but owing to its rank growth is better adapted to the uplands and valley than the rich bottom lands. Per bushel $1.00.
Red Fultz. A smooth, red chaff wheat, a good yielder and suited to any kind of land. Per bushel $1.00.

New Early Red Clawson. This productive and desirable bald sort is destined to become a general favorite. Was originated from the popular Golden Cross, fertilized on the Clawson, partaking from the Golden the compact head, dark red grain, extreme hardiness, rapid growth and strong straw, from the Clawson baldness, red chaff and very large kernels. The heads are very large, often growing from 5 to 6 inches in length, and is a very strong, vigorous grower, being the first to start out in the spring, and is a wonderful stouter. Per bu. $1.

Mediterranean Hybrid Winter. It has proven extremely hardy and very prolific, and has been pronounced by the best judges to be very superior for flour. It has the beard and blue straw of the Mediterranean, and thick set, compact head and plump berry of the Deihl, with stiff, long straw. Per bu. $1.25.
Tree Seeds.
